kbauer@morabitoconsultants.com

Title: Senior Engineer - Morabito Consultants, Inc.
Structural Engineers

Project Assignment: Project Engineer

Years Experience: With This Firm Since: 12/85 With Other Firms: 2

Education: BS / 1982 / Civil Engineering
University of Maryland - College Park

Registration: State of Maryland
Maryland Registration No.: 19945

Professional Organizations: American Society Civil Engineers

Experience:

As a project engineer of Morabito Consultants, Inc., Kenneth's present duties center primarily on the preparation of complete structural contract drawings and construction administration for numerous buildings. His experience encompasses complete structural design of various office buildings, apartment buildings, hotels, warehouse structures, hospitals, libraries, parking facilities, garages and public auditoriums. Kenneth has in-depth experience in the complete layout, programming, design and serviceability of parking structures. Kenneth also has extensive experience in all types of building systems including steel frame, masonry, wood, and poured in place and precast concrete buildings including post-tensioned structures. In addition, his experience includes designing all types of foundation systems including piles, caissons, underpinning and shoring.
