As Vice President of Morabito Consultants, Inc., Fred's present duties include the management of numerous projects and overseeing the work of several structural draftsmen and design engineers. His past experience includes the design and preparation of complete structural drawings for office buildings, parking garages, condominiums, warehouses and multi-family housing projects. Fred has extensive experience working on design-build projects having designed and managed recent State projects at the Morgan State University and Maryland State Accident Fund. His present duties also extend to overseeing various projects under construction and assisting our construction inspectors in solving various field problems.

Fred's project responsibilities include design, client contact, and overall project production.
